

How to switch between multiple profiles in your Robust Health account

1. To switch between profiles, simply tap the letter icon at the top of the screen.
2. The profile for the person that you are currently recording information for is highlighted. Next, tap the person's profile that you want to begin recording information for.
3. You are now on the **Home** page for the person's profile that you just selected and can begin recording information.
4. Switching profiles can also be done through the **Menu**. Tap the letter icon to switch to a different profile or tap the icon with the 3 dots to pull up the Switch Profile modal seen in Step 2.
